## “SREBRENICA 1995-2015: EVALUACIJA NASLIJEĐA I DUGOROČNIH POSLJEDICA GENOCIDA”

Sarajevo – Tuzla – Srebrenica (Potočari): 9–11. juli 2015.

Dvije decenije nakon genocida počinjenog u Srebrenici, na teritoriji sigurne zone Ujedinjenih nacija, u julu 1995, evidentne su posljedice zločina genocida među preživjelim žrtvama koje se manifestiraju u bitnim aspektima ljudske i društvene egzistencije, individualnog i društvenog života. Rezultati agresije i genocida su u fundamentu bosanskohercegovačkog društva i države, njenog sistema, organizacije, funkcioniranja i funkcija, a tragovi zločina mogu se zapaziti i uočiti preko jasno prepoznatljivih različitih oblika manifestiranja, od negiranja genocida, predstavljanja zločinaca kao heroja, pa sve do otkrivanja i identifikacije tijela žrtava iz masovnih grobnica, društvene marginalizacije i diskriminacije povratnika i preživjelih žrtava, te nedovoljno djelotvornog i neefikasnog tužilaštva i pravosuđa. Iako je Dejtonskim mirovnim sporazumom ostvaren prekid oružanog sukoba i uspostavljen mir, nažalost, Sporazum je verificirao faktičke, društvene, političke, nacionalne i etničke protivrječnosti, a time postao generator mnogih aktuelnih i dugoročnih problema. Izvršeni zločin genocida i drugi oblici zločina protiv čovječnosti i međunarodnog prava doprinijeli su formiranju i učvršćivanju nepovjerenja kao bitne prepreke obnove i razvoja društva i države.

Interdisciplinarna konferencija prilika je da se na jednom mjestu okupe renomirani naučnici i istraživači koji će iznijeti naučne stavove o najaktuelnijim kršenjima sloboda i ljudskih prava u Bosni i Hercegovini. Istraživači iz raznih naučnih disciplina će u sklopu konferencije kritički proučiti historijsko, demografsko, društveno, psihološko, kulturno, političko i ekonomsko naslijeđe i posljedice genocida počinjenog u sigurnoj zoni Ujedinjenih nacija u Srebrenici, u julu 1995, kako na lokalne zajednice tako i na bosanskohercegovačko društvo u cjelini, ali i šire. Dvije decenije nakon genocida počinjenog na teritoriji „Sigurne zone Ujedinjenih nacija“ u julu 1995, od posebnog je značaja jačanje i podrška preživjelim žrtvama genocida. Ova konferencija je, pored ostalog, prilika da se razmijene iskustva i da se dobije jedinstven uvid u stanje pravosuđa, tranzicijske pravde i pomirenja, kao i postignuća u ostvarivanju i zaštiti ljudskih prava i dostojanstva žrtava genocida.

To mark the twentieth anniversary of genocide against Bosniaks of the Republic of Bosnia and Herzegovina on the United Nations designated territory – The U.N. Safe Area Srebrenica – in July 1995, the Institute for Research of Crimes Against Humanity and International Law - University of Sarajevo, the Memorial Center Srebrenica – Potočari, Memorial Center and Cemetery for the Victims of 1995 Genocide, the University of Tuzla and the University of Sarajevo is organizing an International Conference under title

**“SREBRENICA 1995-2015: EVALUATING THE LEGACY AND LONG-TERM CONSEQUENCES OF GENOCIDE”**

Sarajevo – Tuzla – Srebrenica (Potočari): 9 – 11 July 2015.

Two decades after the July 1995 genocide in the United Nation designated Safe Area of Srebrenica, the consequences of genocide are clearly present in the society as a whole; both in the private and public sphere. The consequences of the war of aggression and genocide are manifested in the fundamental structures of the country; in its political and social institutions as well as organizations influencing the society. The legacy of the consequences can be further seen in the form of genocide denial, public glorification of war criminals as heroes, the identification of human remains of the victims in mass graves, social marginalization and discrimination against returnees and survivors to the ineffective work of legal institutions, i.e. prosecutors’ office and the judiciary. While the Dayton Peace Accords stopped the armed conflict, ending the war and initiating peace; unfortunately, it cemented the divide within the social, political, national, and ethnic spheres. As such, it became the generator of present challenges and long-term consequences facing Bosnian society. The crime of genocide and other crimes against humanity and international law committed contributed to the mistrust within the different communities. This is an obstacle for the reconstruction and post-war development of Bosnia’s state and society.

The interdisciplinary conference aims to serve as an opportunity to gather, in one place, renowned scholars and scientists who will present their scientific findings related to the current status of violation of freedoms and human rights in Bosnia and Herzegovina. The scholars from various scientific disciplines will, within the scope of the conference, critically analyze the historic, demographic, social, psychological, cultural, political, and economic legacy and consequences of genocide committed in Srebrenica in July 1995 for local communities in Bosnia-Herzegovina and beyond. Two decades after the Srebrenica genocide, it is important to give emphasis to the empowerment of genocide survivors and the need to support them. It is also important to note that the conference aims to provide an overview and an opportunity to exchange knowledge in order to reach a common insight into the work of the state judiciary, transitional justice mechanisms, and tools needed to protect the dignity and rights of genocide survivors.
